FEATURES & SPECIFICATIONS

APPLICATION — The high-performance luminaire is designed for canopy/soffit applications where long life, low maintenance, and consistent color rendering is required. Areas with limited accessibility due to fixture location or where heavy traffic makes maintenance difficult are ideal applications. Such as retail canopies, parking garages, refrigerated freezer lighting applications, and petroleum dispensing canopy applications requiring Class 1 Div. 2 Hazardous Location rating.

CONSTRUCTION — The heavy duty housing is constructed of cast aluminum with heat dissipating fins. The optical assemblies are sealed in place using a silicone gasket for weather tight protection. Fully sealed optical compartment isolates LED PCB from driver compartment. Anti-siphon power leads prevent water entry thru conductors. Wireway is epoxy potted to seal driver compartment. Modular LED system for ease of maintenance. ETL listed for wet locations (IP65). Additional IP66 rating available upon request. Each fixture comes standard with preps to accommodate advanced wireless control, management and reporting systems for outdoor lighting.

FINISH — A super durable powder coat finish. Standard colors available: Black, Bronze, Silver, White. Custom colors available upon request.

OPTICAL SYSTEM — The fixture is available with either a clear patterned, flat tempered glass lens providing a uniform and symmetrical light pattern or a molded borosilicate glass drop lens to provide a softer, wider light pattern.

ELECTRICAL SYSTEM — Available in 4000K-80 CRI Neutral White, 4000K-90CRI Neutral White or 5000K-80 CRI Cool White color temperatures. Available with 100-300V 50/60 Hz IP67 power supply. LED's rated for over 50,000 hours at 25°C ambient temperature. 347V-480V input option available. 0-10V dimming. Built-in surge protection up to 10 kA. Built-in Active PFC Function >95%/Full load. LED Power Supply conforms to UL8750 standards and is IP67 rated.

ORDERING INFORMATION

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.

DesignLights Consortium® Qualified. Please go to www.designlights.org for the current Qualified Products List. Further details about qualified models may be found under Family Models.

NOTES

- 1 = Pendants and pendant mount accessories sold separately. See Accessories for available options.
- 2 = 347-480V input not available for 26W model.
- 3 = Custom RAL color matching is available. Contact your sales representative for additional info.
- 4 = Bluetooth enabled control via the Casambi App on IOS or Android phone.
- 5 = Refrigeration Kit provides a non-conductive composite stem for mounting in an artificially refrigerated environment.
- 6 = Occupancy Sensor with Low Ambient Photocontrol and Time Off Operation will allow fixture to remain off when light levels exceed 12 FC (130 Lux) regardless of motion detected. WOC option provided with lens designed for 20' mounting height.
- 7 = Occupancy Sensor with High Ambient Photocontrol and Time Off Operation will allow fixture to remain off when light levels exceed 55 FC (600 Lux) regardless of motion detected. WOC option provided with lens designed for 20' mounting height.
- 8 = Occupancy Sensor with Time Off Operation will allow fixture to switch to full output when motion is detected regardless of existing light levels. The sensor will switch the fixture off when no motion has been detected after 5 minutes. WOC option provided with lens designed for 20' mounting height.
- 9 = Hazardous Location Certification not available with the RK, NSF or any of the Occupancy Sensor options. HAZ not available with P-Pendant mount version. For international Zone System the classification is Class I Zone 2.

CSL

LED Petroleum Canopy / Soffit Light

SERIES	HOUSING HEIGHT	LENGTH & WIDTH
CSL	2.75"	16.39" x 16.39"

MOUNTING — The fixture can be thru hole flush surface mounted (2-1/4" diameter deck penetration required) using the pre-set mounting holes and hardware provided with each fixture or it may be mounted via pendant. Surface Mount is suitable for use on single or dual skin canopies with minimum 22ga, 0.030" thickness. Surface mount fixture provided with gasket rear mounting surfaces and stainless steel hardware for attachment to canopy. Self-sealing screws are provided but RTV application on top canopy deck is recommended. Side conduit entry (SCE10) option is provided with a 3/4"-14 NPS threaded entry and 10' of 16/3 600V STW power cord (3/4" conduit or Seal-Tite fitting provided by others). Side conduit entry is not for through-wiring. Consult factory for 5-wire power cord if 0-10V dimming is being utilized. Pendant Mount provided with factory installed bracket and hanger type J-Box and Hub for 3/4" pipe stems. Safety chain kit available. Pendant Mount configuration is provided with box plate and hub (Pendants sold separately).

LISTINGS — ETL listed for wet locations. Meets US and Canadian safety standards. -40°C to 50°C ambient operation. RoHS Compliant. Class 1 Div 2 Hazardous Location Rating up to 50°C ambient operation. Rated for Groups A, B, C & D. Temperature Class T4A. ETL Intertek Sanitation listed conforms to NSF Std 2 for Nonfood Zone when ordered with NSF option. IP66 certified by ETL Intertek Testing for both surface and pendant mount. NOM Certified. DLC listed, see note (16) for more details.

EXAMPLE:

CSL S N90 DL 82 1 WH

ACCESSORIES (Order as separate line items)

THBSCxx	Safety Chain Kit (for pendant mounting, "xx" must specify length)
100265xx	Stem 3/4-14 NPS Steel (replace "xx" with 6", 12", 18", 24", 30", or 36")
132234WHPKG	24" X 24" Beauty Plate
105615KITKWH¹⁵	Kit w/Pendant Mount & J-Box WH finish

- 10 = Not available with HAZ or OCC sensor options
- 11 = Surface mount only. Not for through-wiring. Provided with a 3/4"-14 NPS threaded entry and 10' of 16/3 600V STW power cord (3/4" conduit or Seal-Tite fitting provided by others).
- 12 = HOEB option is not available with HAZ, WOCPLT, WOCPTH, or WOCT options.
- 13 = Multi-Volt is an auto ranging power supply from 100V to 300V input.
- 14 = Custom outputs available. Consult factory.
- 15 = Kit is for conversion from a S mount to a P mount. Not for use with S-Surface mounts which include RK, or HAZ options.
- 16 = **DLC for 82W is not available in Cool White nor Neutral White.**
- 13 = WHBL1 Lens must be ordered along with this sensor.

Integral Motion Sensor Blue Tooth Module (IMSBTM)

APPLICATION — The IMSBTM is an AC-powered, Integral Motion Sensor Blue Tooth Module, that is highly versatile for various indoor and outdoor lighting fixtures. It provides **360° coverage**, making it optimal for open spaces and aislesways. This sensor is particularly suitable for environments such as parking lots, fuel stations, walkways, and storage facilities. The WHBL1 lens is crafted for fixtures at mounting heights ranging from **20 to 40 feet**, ensuring a coverage span of up to **80 feet in diameter** at the maximum height of **40 feet**. These lenses are designed with multiple cells and tiers, creating a dense pattern of coverage.

- Analog Sensor Built-in
- Replaceable lens options
- 120-277V Line Voltage input
- Daylight harvesting available

OPERATION — Typically, the sensor ramps lighting On to the selected High mode level when motion is detected and the ambient light level is below the hold off setpoint. After the sensor stops detecting movement and the time delay elapses, lights fade to the Low mode level. If there is no motion during the subsequent cut off time delay, the lights will turn Off. For dusk to dawn control, the integral photocell can switch the lights On and Off based on the ambient light level so that lighting remains on overnight even without motion detection.

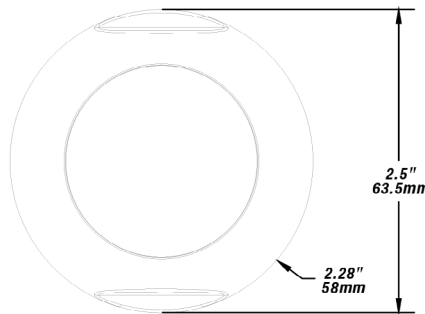

ADDITIONAL FEATURES

- **Wireless Control System:** Bluetooth® Low Energy Mesh 4.2 & 5.0 protocols. Enables individual or group control of luminaires.
- **Mobile App Operation:** Intuitive interface for easy management.
- **Flexible Commissioning:** Components commissioned via the Mobile App. No need for a gateway during commissioning.
- **Sensor Integration:** Works seamlessly with various sensors. Enhances energy efficiency and responsive lighting.
- **Mesh Network Range:** Wireless communication up to 100 feet or more between devices. Ideal for diverse spatial configurations.
- **Internet Independence:** Commissioning and operation without internet access. Ensures functionality in various environments.
- **Security Measures:** Data encryption for mesh network security. Device access restricted without encrypted QR codes.
- **UL 1376 Verification:** LiteTrace, the manufacturer, has UL 1376 verification. Ensures adherence to stringent security standards.
- **In-House R&D Capabilities:** Full-stack, in-house R&D for networked sensors and controllers. Reflects a high level of control and innovation.
- **Industry Recognition:** One of the first systems listed to DLC's Networked Lighting Controls (NLC5). Compliance with industry standards and specifications.
