FEATURES & SPECIFICATIONS

APPLICATION — The Titan is designed to produce a far reaching Forward Throw light pattern and is well suited for perimeter lighting. Limited back light and spillage makes this fixture efficient and precise. The aesthetically appealing design allows for it to blend into a wide variety of architectural settings and designs.

CONSTRUCTION — Constructed from architecturally shaped die cast aluminum housing. The door frame features a tool-less latch with stainless steel hardware. A silicone gasket provides a weather tight seal. ETL listed for wet locations.

FINISH — A Super Durable Polyester powder coat finish is electrostatically applied in our state of the art paint facility. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request.

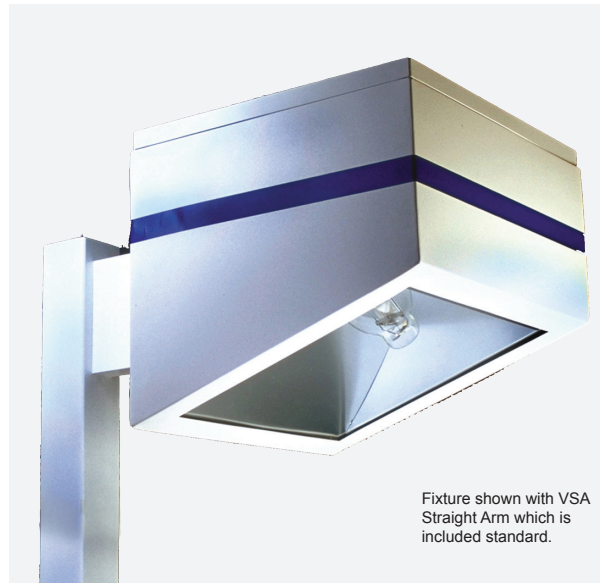

OPTICAL SYSTEM — The fixture uses high efficiency reflectors and premium optical components. It is available in a forward throw beam pattern. The vertical lamp position offers exceptional optical control. The fixture was designed retail property applications.

ELECTRICAL SYSTEM — A 4KV pulse rated mogul base socket is provided standard. Fixtures are available from 400W-1000W Metal Halide and Pulse-Start Metal Halide. Each fixture is available with either a multi-tap or 480V CWA magnetic ballast that is pre-wired for convenience.

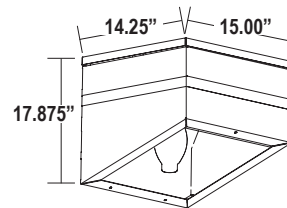

MOUNTING — Standard mounting options include a 12" Straight Arm with internal bolt guides for square pole mounting provided standard. Additional mounting options are available.

Titan Designer Shoebox WBV SERIES

Fixture shown with VSA Straight Arm which is included standard.

Series	Housing Height	Length & Width	EPA
WBV	17.875"	14.25" x 15.00"	3.2

ORDERING INFORMATION

Choose the bold face options for the appropriate luminaire configuration for your application and enter on the line above each fixture attribute. Accessories may be factory installed, depending on the particular accessory chosen, but still be ordered as a separate line item.
