FEATURES & SPECIFICATIONS

APPLICATION — The LWWD Series Linear LED Wall Wash is designed for illuminating architectural surfaces and commercial signage. Areas with limited accessibility due to fixture location or where heavy pedestrian or vehicle traffic makes maintenance difficult are ideal applications. The low-profile design keeps the fixture placement discrete for both ground and wall mounted applications.

FEATURES — The heavy-duty housing is constructed of extruded aluminum with die cast aluminum connectors. A linear diffuser provides even light coverage and precise beam angles. The LED strips and optics are protected by a low iron tempered glass (3mm) lens. Complete unit is provided with IP67 integrated driver

FINISH — A Super Durable Polyester powder coat finish is electrostatically applied in our state-of-theart paint facility. Standard colors available: Black, Bronze, US Green, White. Custom colors available upon request.

MOUNTING — The fixture is designed to be mounted using 1/2-14 NPS threaded aluminum stems or arms (sold separately). These stems or arms, which can be configured for uplight or downlight applications, are powder-coated to match the fixture's finish

ELECTRICAL SYSTEM — Long life LED's and high efficiency drivers work together to provide superior performance in a safe and efficient package. L95 at 10K hours L70 ≥ 50K hours. LED's available in 3000K, 4000K and 5000K with a CRI >80. Electronic drivers are integrated into the fixture. 120-277V drivers. 10kV surge protection provided. Power factor >0.9, 0-10V dimming available, order DLP.
